TWO MEXICAN MINING DISTRICTS TO GET ELECTRIC POWER BY JAN.

Extensive Development of CALIFORNIANS Follow Its Installation.

Gnadalajara, Mex., Oct. 31.—The Chapala Hydro-Electric and Irrigation company of this city, which is preparing to transmit power to the Hostotic paquillo and Etzatlan mining districts of this state, is completing tower lines and is stringing wire. The work is being done under contract by the Siemens-Schuckertwerke interests of Betlin, which are also installing for the company a new 12,000 horse power plant on the Santiago river. Power is now promised the mining concerns of the two districts about the first of the coming year,

The main transmission line extends from the new power plant on the Santiage in a direct line to Lo de Guevara. a point on the Southern Pacific extension near Magdalena. There it branches, one line of towers extending to the Embocada camp of the Amparo Mining company, in the Etzatlan district, and the other to the El Favor mine, of the El Favor Mining company, in the Hosthat point pole lines will carry power to the properties of the Consolidated Mining company, the Amajac . Mines company, the Virginia & Mexico Mine & Smelter corporation, the Espada Mines company and the Mirador Mining company. The transmission of electric power is expected to result in making feet. Hestotipaquille one of the most important milling districts of Mexico.

The capacity of the new reduction plant of the El Favor Mining company in the Hostotipaquillo district, now awaiting the transmission of power to that district, is being increased by the installation of two additional tube mills. There are now two tube mills in place. The mill has 20 stamps, and with four tube mills for regrinding it is expected to handle 120 tons of ore Systematic development has been in progress at the big El Favor mine for several years, and a great tonnage of ore is blocked.

The Mirador Mining company, controlled by the same New York inter ests in control of El Favor, will build a 100-ton plant during the coming year. in the The company owns the Mercedes-Providencia group in the Hostotipaquillo district of this state, and the San Francisco group across the Santiago river in the territory of Tepic. The plant will be built at the Mercedes-Providencia properties.

The Mexican Iron and Steel compa ny, the Boston concern that is purchasing the Tula iron mines, foundry, timber and lands in the Tapalpa district of this state for 1,000,000 pesos, will use traction trains for the transportation of iron ore from the mines to the The distance is 23 miles. One train has been purchased and two more will soon be ordered. Up to this time the ore has been transported on mule-

The Boston company has a capital of \$5,000,000. Its investments so far total nearly 500,000 pesos, the greater parof the money having gone to Daniel Ochoa of this city, the former owner of the Tula properties. The plans of the

GROCER OF TUCSON MAKES RICH STRIKE

Tucson, Ariz., Oct. 31 .- W. T. Jay, a local grocer, who has been working a claim in the Sierra Del Gato district, only five miles southwest of has made a rich strike. At a depth of 30 feet he has run into a four foot body of gold ore which runs \$11 per ton on all around assay.

MANY MORMONS WORKING OR INTERESTED IN MINES

Colonia Guadaiupe, Chia., Mex., Oct. Work. \$1.—George M. and Erastus Koch are been successfully working a rented mine, Willard Iverson has also been engaged in working a mine; in fact, every man in town has an interest in a prospective mine if they only had time and money to develop them.

WORK PROGRESSING ON CAP ROCK AND KLONDIKE

Work is progresing on the Cap Rock and Klondike mines in the Quay county district. Work is being pushed on the Logan mines and many new prospectors are coming to the field.

CATARRH A SPECIFIC BLOOD IMPURITY

Catarrh is a deep-seated blood disease, one which no amount of local treatment will ever permanently cure. The beneficial effects of washes, sprays, inhalations, etc., are only temporary, and when left off the old condition returns, because the blood is infected with catarrhal matter and impurities. This impure condition of the circulation irritates and inflames the delicate mucous membranes and tissues and produces the well known symptoms of ringing noises in the head and ears, mucus in the throat, headaches, watery eyes, partial deafness, sore throat, general impairment of health, etc. This condition will remain, growing worse as long as the catarrhal matter is allowed to remain in the blood. Being a specific blood impurity, there is only one way to cure Catarrh, and that is to purify the blood. Nothing equals S. S. S. for this purpose. It attacks the disease at its head-in the circulation-and by thoroughly renovating

the blood and cleansing it of all impure matter, makes a permanent and lasting

cure of the disease. For forty years S. S. S. has been recognized as the best blood

purifier, and the thousands of cases of Catarrh it has cured is proof that it is the very medicine needed by those who suffer with this trouble. Book on Catarrrh and any medical advice free. THE SWIFT SPECIFIC CO., Atlanta, Ga,

MISS YOUNG'S CLAIMS

Said to Have Paid \$100,000 for Group In Pinos Altos Disrict.

Silver City, N. M., Oct. 31.-The group of claims owned by Miss Lizzie R. Young and father and situated in Pinos Altos mining district, nine miles north of this city, have been sold to a Los Angeles syndicate, whose representatives came here some days ago to examine the claims. Work has been started under the superintendency of James O'Hara, a practical mining man of California. The work of developing totipaquillo district. At El Favor there the group, which comprises five will be a switching station, and from claims east of the famous Golden Giant mine and south of the Deep Down, a well known former producer of high grade gold ore, will be prose cuted vigorously by the new owners Considerable development work has al-ready been done, the main workings eing down to a depth of about 160

The consideration is reported to be \$100,000, the major payment falling due in six months from date of sale,

CONSTRUCTION WORK RUSHED AT CANANEA

Fetal ed Cobra Elects Directors-Copper Encountered In San Felipe.

Cananea, Son., Mex., Oct. 31 .- The Greene-Cananea company is continuing its smelter with six furnaces, this number being in use the entire month. The October output is expected to be neighborhood of 3,500,000 pounds

Construction work is making rapid headway and much of it will be completed before the first of the year. The Juanita Mining company, which is operating northwest of town, and which is known as the Shattuck-Pattison property, has installed a whim at the shaft which is being sunk near the Calumet & Sonora property. Sinking will be resumed at once.

The directors of the Capanea Northcommencing of development work in to have the property monumented at once. Some good ore has been discovto discuss development work.

Directors Are Elected. The Metal de Cobre company, which is the Mexican corporation of the Yaqui River Copper company, held its annual stockholders' meeting in Cananea this Boston concern call for the erection of modern iron and steel works, a tool and implement factory and a plant for the manufacture of by-products of the manufacture of by-products of the manufacture of by-products of the manufacture of the ma was transacted.

The Nacozari Consolidated company is making progress. The main tunnel is in a distance of 660 feet, attaining a depth of 350 feet. The tunnel is being run to catch the Pilares vein, will be caught when the tunnel makes a depth of 700 feet. There are seven sliver veins on the property of the company, which consists of 66 pertenencias. Two shafts are also being

worked at present. Work Resumed on North Tigre. Work has resumed at the North Ti-gre property in the Tigre district, below Douglas. The work is being done by contract and 13 men are now at Recently two stringers have been encountered in the lower tunnel which assay 500 and 250 ounces re-

spectively. The Nuevo Promontorio mine in the Altar district is having a shaft sunk. It will be sunk to the 300 level. Good copper ore has been encoun-

tered in the San Felipe mine of the Elenita company. The find was made in a tunnel and two other tunnels are also being cut. The shaft is down 160 feet in leached and broken ground, which is highly mineralized. An English syndicate has bonded the

Eloisa mine in the La Dura district. Two shafts are being sunk and 25 men are being employed. Plenty of Water Now.

The concentrator of the Moctexuma Copper company at Nacozari is working to full capacity. The water supply now ample. During the summer only half of the mill was operated on account of the scarcity of water. The Transvaal company is working

a force of 150 men at its properties west of Cumpas, The Antigua property, in the Tabatacochi district, is working 50 men and shipping six to seven cars a month to

El Tigre Improvements. The El Tigre company has completed all the cement work for the new cyaniding plant, also for the addition to the Hunting mill. The new power house will soon be erected. This will be supplied with electricity from the Copper Queen smelter at Douglas, a distance of 72 miles. The material for the line has been ordered and the contract let for the erection of the poles plant will be ready for use about May , 1911. About 600 men are now at

and in the mines. The directors of the Santa Rosalia Mining company are expected to arrive modern tendency of the people is the in Cananea in a few days. They will go down to the mine and look it over.

From the Bowels Of the Earth Came the Blue Of the Sky

Indians of Long Ago Found It Near Santa Fe and Recently Their Descendants Robbed the Ancient Mine of Turquoise,

Then came the Spanish, seeking gold the mine of turquois blue remained, losing their civilization, forgetting their skill in engineering and the arts. The Old Order Changeth.

It was centuries ago when the ancient dwellers of New Mexico built this shaft centuries marked by great change. But only this month there was a sequel of the original capture of the mine by the Spanish settlers. Now the old shaft, improved and surrounded by newer ones, is owned by Tiffany, a New York concern whose very name suggests wealth. The blue of the sky in form of semiprecious stones, taken from the earth and sold throughout the world in competition with the famous Callaite of Persia.

Rifle the Mine Their Fathers Found. But this month, ancestors of the original builders of the old mine entered the ancient shaft and dug out some pieces of the stone. They came as the Spanish did, armed to the teeth. It is reported that a number of braves held scended into an old prehistoric shaft this property

Long before the European came to about 100 feet deep and procured some the Americas, the civilized indians of of the sky blue stone. They danced this locality had learned to find the about the home of J. P. McNulty, manablue of the sky in the bowels of hie ger of the mines, who has asked for earth. An ancient mine of prehistoric protection from sheriff Closson. Simcreation, 20 miles south of Santa Fe, is liar demonstrations have occurred be-

fore. The indians are of the Pueblo tribe, and precious stones, a few cycles ancestors of the ancient cliff dwellers, brought Mexico, and more time produced a possession of the Anglo-Saxons, of prehistorisc Mexico. In speaking who call themselves Americans. And of the recent uprising, Clinton J. Cranall this time the indians who had built dall, superintendent of the reservation, said:

"I have warned the indians to keep away from those mines, but it does not seem to be an easy matter to get them ot grasp the reason why they have no right to mine turquois today as of

Santa Fe, Rich In History, Is Withal a Modern Town

Historically, One of America's Most Interesting Cities

Santa Fe, N. M., Oct. 31 .- Santa Fe, , the surrounding atmosphere; shorn of It has already put down one block ment. of vitrified street paving in one of its very narrow, old Spanish style business has already erected and is planing the erection of a number of modern public and private buildings and is things that place it in the progress of modern events. with its ancient church of San Mi-

guel, the oldest in America; its historic old Palace of Governors that has housed the rulers of the territory since the days that Spain controled the re-gion; its shaded little plaza that has witnessed many exciting scenes made history; its famed old Fort Marcy now in crumbling ruins, yet once ern at a recent meeting discussed the one of the nation's most notable frontler posts; its monument to the valor the near furture. They also decided of Kit Carson, and its other historic landmarks, Santa Fe has much to recall a giorious and valorous past, but ered on the property recently on the Santa Fe, while proud of this historical surface which has caused the directors association, is not living in the past. association, is not living in the past. Santa Fe is living in the present and for the future and Santa Fe citizens are taking active steps to keep their city as much in the forefront now as when it was the western terminus of the noted Santa Fe trail and the seat

> er or both still play a large part in the affairs of the capital of New Mexico. The archbishop of the diocese is located here and also the cathedral of the structed but still uncompleted inasmuch as the spires to the towers have the famous old San Miguel mission, declared to be the oldest edifice of worship in the continent, built in 1598, destroyed in 1690 and rebuilt in 1710 and continuously worshiped in since that time, though time has worn so many changes and forced so many repairs and alterations until now but little mor than the foundation and part of the main walls are all that remain of the original Surrounding this mission are the beautiful grounds and ancient gray buildings of the Brothers' col-

boys' college west of the Missour. Adjoining, and just across the Santa Fe river, is the convent of the Sisters of Loretto, likewise famous for having graduated some of the most notable women of the southwest. Nearby are the day schools for boys and girls conducted by these same good sisters and not far away is the St. Vincent orphan home and hospital, another the f Catholic institution with a history as fifth. ong as its record is creditable as an institution of charity and mercy. All these buildings and the residences of the bishop and archbishop are grouped along the banks of the river until the representation of the church of the Holy Faith in Santa Fe is a most ex-

lege, that boasts the graduation from

proudly claims to have been the first

tensive one, With all these institutions of ancient prestige and all its landmarks of antiquity, Santa Fe is still a modern town in many respects and is develop and stringing the wire. The new Tigre new homes, its new public buildings, its new business houses are all taking on work at the mill, on construction work modern in that they are strictly up to the modern aspect and its people are the times in their business affairs One of the strong indications of the new courthouse just completed. It differs from almost every courthouse in At present about 30 men are at work the coutnry, in that it is commodious and convenient and free from freak large, square structure of mission design, without any pretentions of frills or towers: N. M., Oct. 31.-While the there is nothing expensive and incongruous about it. The building was erected for service and it is both serviceable, and most pleasing in architecture. It is built in keeping with the government idea followed in the construction of modern federal buildings. Room and accessibility are first considered, and in getting these, the use of a hand trommel screen. This commissioners also got a structure improves the value of the screenings 50 that is a credit to the town, and shows commissioners also got a structure Santa Fe to be modern in its ideas in that it sets an example that other cities can well follow.

The public library, the Mary Jam-s school, the Elks' theater, the new high school building, the armory and many of the residences are of modern design, mostly mission, in keeping with tenth as much. For sale by all dealers least to say regarding the making of

STIMSON, ROOSEVELT'S CANDIDATE. | laws. The greatest boast of the aver-

A quiet man, who has done much work; who puts most of us to shame with his truthfulness and the persistent straightnes of his course, who has never taken, and never could take, an improper order from any human being such a man is Stimson. His administrative ability was shown in the conduct of his office when he was United States district atorney. If he has done more to put down rebates than any other man, he did it because it was his function. If he put the ice king in jail, it was done without malice. We are all talking about his sugar trust indictments, but as Mr. Stimson is not known few realize how much more farreaching has been his punishment of the custom house officials. He has obtained convictions against the New York Central, the Great Northern, the Vermont Central, the Chicago, Milwaukee, and St. Paul, the Chicago, Rock Island, and Pacific. He is farthest removed from a demagouge. Not emotion moves him, but knowledge and reason. He is slow to let his mind condemn is inflexible

There has been a good deal of justifiable discontent over the immunity of crimes. Charles W. Morse was a high financier, and some people may take Stimson put him in stripes, with ordinary unwealthy felons, who steal because they need the money. The secretary and treasurer of the American Sugar Refining company has also been sentenced to the penitentiary. The superintendent of the Havemeyer Elder refinery was also sentenced to two years in prison. All this, as we have said, was done coolly and silently, in the mere course of public duty.

Personally, Mr. Stimson's career is without a blot. There is nothing to explain. Had the whole state of New York been raked for a man worthy to follow Hughes, we know not one who could have faced that heavy test with a fairer hope than Stims

WHAT DON KEDZIE SAYS. Lordsburg (N. M.) Liberal,

The Liberal is "proud to know" that El Paso is rapidly becoming civilized. Within the past week it has redeemed itself from the reputation it has long enjoyed of turning murderers loose, on trial. It has been so long since a killer has been convicted of murder in the first degree in that town that memory does not recall the date. Two men have been tried there and convicted of murder in the first degree.

It is probable that neither of the murders would have been committed if El Paso juries had done their duty in the past. It was considered perfectly safe to kill a man in that town. Knowing how killers were treated in E Paso, John Leech considering it perfectly safe to do so, went down to Kohlberg's store and shot him a couple days-and stone monuments here, there of times, which shots caused death in and yonder, with the vast collection of a few moments. Leech was arested, prehistoric, indian and early territorial tried, convicted of murder in the first relics gathered under the auspices of degree, and sentenced to prison for

Hallowe'en, the Night Of Pranks

gifted at making his work widely the Hallowe'ens well and are you up to the same old pranks as of old when you put the cow on the top of the schoolhouse and bedded the calf down in the Latin professor's office?

Hallowe'en, despite all statutes of limitations and laws to the contrary, is on the job again for the umpty umpth time and will reign Monday night with the usual corn husk and jacko'lantern trimmings. Hallowe'en He is slow to let his mind condemn has an origin that is as misty as the any man or any corporation, but when Billy Patterson mystery. No one claims the evidence is before him his conduct it for his own and it is neither religious nor secular. It just is.

Once each year the old fashloned wooden wash tubs are filled with apthe man higher up in corporation ples floating in water, pumpkins are gouged out and converted into facsimiles of faces, human or otherwise, satisfaction (as we do) in the fact that and fodder is liberally distributed over the landscape. Spooks are supposed to rule supreme on the last night of October by common consent and goblins ream at will through the land. Gates mysteriously disappear fences in the rural communities are torn down and piled across the road where the five rail fence is still the style, culverts are overturned and woodpiles disarranged to the chagrin of the fireman of the family fireside. Romantic maidens climb rickety stairs to look in a mirror by candle light for the reflection of their future lords and pranks galore make up the evening's fun.

Hallowe'en is the night that kids are king and the village brassbuttons runs himself into an attack of "rheumaticks" trying to put the west siders, the spoke factory gang and the Bucktowners to route and to prevent them from carrying off the town barber

Hallowe'en in El Paso is celebrated after a fashion. The usual spook and shiver parties are held with all the sheets from the spare room beds in commission as phantom drapery. Sat-urday night a crowd of goulish spooks invaded the downtown district just as the crowds were returning from "the wild west" show and took temporay possession of an Oregon street confectionery. This was the beginning of the annual Hallowe'en festivities which will reach their zenith tonight. The police will be on the lookout to prevent rowdyism.

R. F. Mitchell

R. F. Mitchell is the candidate of the Republican ticket for Constable against Domingo Montoya, the Democratic nominee. Two years ago Mr. Mitchell was elected by a small majority over the late Mannen Clements, and his hundreds of Democratic friends who voted for him at that time have never been sorry of the support they gave and ne will probably be reelected by impartially executed all process in his hands, and among the members of the bar, who are always interested in the prompt service of court process, there has never been a complaint. is often truthfully said that police officers are the most flagrant and habitual violators of our laws, but Mr. Mitcheil has had much experience, and is advised as to the duties of an officer. He has never broken the door to any man's habitation, however humble. less armed with a felony warrant. He has never made an arrest for some alleged offense not committed in his presence without a warrant. He has never, himself or through his deputies, allowed personal animosities to influence his actions, or that of the office, and has at all times been importial, watchful and faithful to the people's he not be reelected, but his hundreds of friends will go quietly to the polls increase his majority of two years ago, ing a faithful and courageous officer, and we believe will not exchange him for one unknown and untried, although he happens to be the regular Demcratic nominee While has many influential Mexican friends ganization of "herders" and must rely mainly upon the untrammeled and in dependent vote. he is very busy and cannot see you personally, but respectfully asks for your support. 00000000000000000 HOW TO WRITE A NOVEL. By Wex Jones.

****** How to begin a novel is discussed by a writer in the Westminster Ga-There are only six ways, says this authority-The society, the testamentary, the local color, and the action are some of the openings. The society opening-"Home, James!" exclaimed Lady Snooksby. mentary-I, John Driveller, being of sound mind, do desire, to set down some of the curious things which befell in the year of the big wind. The local color-It was raining in Mude burro. The rain ran down the gutters and plashed upon the pavements. Little streams ran between the cobble stones. The action-"Marked cards!" At the words every player turned to gaze upon Sir Marmaduke, who, with

lazing eyes. However, all of the novels, no maiter how divinely they begin, must end in one of two ways, the union or the The union-She snuggled her head against his shoulder. "Smith was only a mutt," said he, gazing at smoking revolver in his hand, p," said she simply, "a mutt." 'Yep," said she simply. Throwing away the gun, he took her

The separation-He stood gazing at the door, the door which had closed forever against him. Then with a bitter laugh he strode in the direction of the nearest restaurant, determined, since none cared for him, to choke himself to death on pie.

had melancholy, probably caused by an inactive liver. A bad liver makes cross and trritable, causes mental and physical depression and may re-

suit disastrously.

Ballard's Herbine is acknowledged to be the perfect liver regulator. If you're blue and out of sorts, get a bottle today. A positive cure for billious headache, Constipation, Chills and Fever and all liver complaints. Sold by all druggists.
